

CHILD SEAT FROM 8 TO 18 KG (GROUP 1)

Fam. N° 953

16088475 80 

CHILD SEAT
FROM 8 TO 18 KG (GROUP 1)
DUO PLUS

- **Compulsory in all European countries for transporting children.**
- **The Romer Duo Plus can also be used without ISOFIX mountings, secured by means of the seat belt alone.**
- NON-CONTRACTUAL PHOTO.

DESCRIPTION

- ISOFIX child seat which can be used in the "FORWARD-FACING" position for group 1 (from 9 to 18 kg), providing optimum protection for the child while travelling.
- Seat offering excellent protection for the child in the event of a frontal or lateral impact, as well as excellent comfort on long journeys.
- Fitting instructions are provided with the seat.

TECHNICAL CHARACTERISTICS:

- **Seat approved in accordance with the European regulation ECE R44-04 currently in force.**
- **ISOFIX universal child seat for group 1 (from 9 to 18 kg).**
- This seat uses the ISOFIX system that enables the seat to be fixed straight onto the attachments on the vehicle designed for this purpose, providing extra security.
- Equipped with a "Top tether" strap: a strap that fixes onto the ISOFIX third anchorage point (top tether anchorage).
- Possible to fit this seat in universal mode with just the 3-point seat belt.
- High sides.
- Several shell angle positions are possible.
- 5-point harness system with central length adjustment.
- Two-tone grey cloth cover
- Removable, machine washable cover.
- Dimensions: H 60cm x L 46cm x D 49 cm
- Weight: 9 kg
- Personalisation of the seat with the PEUGEOT logo embroidered on the backrest

SALES STATEMENTS

- Increased safety thanks to the higher sides protecting against lateral impact.
- Protective capacity optimized in case of an accident.
- The seats marketed by the manufacturer are tested both statically and dynamically (crash tests).
- Due to its Top Tether fixing strap this seat significantly reduces the displacement of a child in the case of impact.
- Special shoulder pads to reduce the stress exerted in the area of the neck and head in the case of frontal impact.
- Safe and ultra-rigid securing between the car seat and the vehicle.
- Quality seat, very comfortable for the child.
- Easy adjustment between sitting, sleeping and resting positions.
- Standard fixings for easy, trouble-free fitting and removal.
- Light, the transfer of this seat from one vehicle to another is easy.
- The manufacturer's logo provides a touch of elegance.
